**The Enneagram** is a powerful tool to look at 9 distinct personality strategies of how we humans cope in relationships, work & the world.

**Subtypes** are 3 specific arenas of life where the vice/passion of our type shows up. Knowing our subtype helps us relax the energy of our vice.

**This is an opportunity** to learn & reflect upon our internal motivations and focus of attention.

**An invitation** to shift our daily patterns of thinking, feeling & acting in the world.
